Moksha Patel

Richardson, TX |dal980329@utdallas.edu | linkedin.com/in/mokshaapatell/ | github.com/moksha515

SUMMARY

Highly organized and detail-oriented Computer Science student. Eager to apply problem-solving and communication skills in innovative projects, programs, and internships.

EDUCATION

The University of Texas at Dallas, Richardson, TX Expected May 2029

Bachelor of Science, Computer Science

- Coursework: Probability and Statistics, Linear Algebra, Professional and Technical Communication

SKILLS

Programming Languages: Java, C++, Python
Softwares: Microsoft Office Suite, Google Suite, Adobe PDF
Certifications / Courses : PCEP, Python for Data Science and Machine Learning
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Soft Skills: Collaboration, Problem solving, Communication, Adaptability

WORK EXPERIENCE

iCode, Missouri City, TX May 2026 – Aug 2026

Summer Coding and STEM Instructor

- Spearheaded technical preparation for specialized VEX Robotics software platform by pre-testing workflows prior to the session launches.
- Facilitated interactive sessions for a group of 15 students by **balancing** direct instruction with hands-on building **projects**, optimizing lesson pacing to maximize student **engagement** and **comprehension**.
- Directed daily lab operations by overseeing hardware configurations for **15 workstations** and readiness.
- Collaborated as primary **technical liaison** between management and students and improve overall experience

PROJECTS

Jamly, Course Project October 2025 – December 2025

Tools Used: Firebase, GitHub, React Native, Figma, Canva

- Collaborated within a **three-person team** to conceptualize and develop 'Jamly', an AI-driven mobile application that generates song and playlist **recommendations** based on user **queries**.
- Contributed to the initial design phase by individually authoring detailed user stories and creating **2+ Figma** wireframes, ensuring optimal aesthetic appeal and intuitive user interface flow.
- Integrated an authentication system using **Firebase**, supporting email, password login, and Multi-Factor Authentication (**MFA**) to ensure secure application access and user authentication.

WeHack 2026, Richardson, TX April 2026 – April 2026

Simmer*,* Hackatho*n Project*

Tools Used: Figma, Canva

- Coordinated within a **three-person team** to ideate and prototype 'Simmer' in a **dynamic** environment, maintaining constant **communication** to align design visions and execute the project.
- Spearheaded the UI design for **4+ Figma wireframes**, prioritizing an aesthetically compelling and **user-friendly** layout to incentivize user adoption and interaction.
- Resolved **critical** prototyping bugs related to duplicate frames and broken interactive components, ensuring **seamless navigation** and high accuracy in user click-paths.

CAMPUS INVOLVEMENT

Society of Women Engineers, *Member* January 2026 – Present
Women Who Compute, *Member* January 2026 – Present
Girls Who Code, *Member* August 2025 – Present
